

ACTION TAKEN REPORT- ALUMNI FEEDBACK

The feedback collected from the alumni indicates that in general the College provided them with their expectations; however a lot more could be delivered as college has the potential to grow into a centre of excellence.

Points to Ponder	Action Taken
1. Employability Skills: 46% of the alumni gave a feed back that the campus did not provide them the right kind of employability skills	The arsenal of certificate courses, add-on courses and training has been constantly been updated as per the market demand
2. Infrastructure: Though majority are satisfied with the infrastructure alumni hope for improvement in all aspects	The college infrastructure is constantly being revamped as per the needs.
3. Library Infrastructure: The alumni are apprehensive of the number of books and the lack of books that could help them in competitive examinations.	Students seek books for competitive examinations after completion of the final year exams. A policy change has been suggested where students preparing for competitive exams are allowed to refer the books on days when regular classes are not scheduled on campus.
